August, 2018

Friends,

Enclosed please find your 2018-2019 tax bill along with the North Arlington Newsletter.

The municipal portion of the bill reflects a minimal change in the amount to be raised for the cost of municipal services. We continue to keep any tax increases to a minimum while we expand the services available to our residents.

In the last year we have continued our aggressive road paving program. Improvements continue in all areas of municipal facilities. As this letter goes to press, lighting is being installed at Zadroga Field which will greatly increase the number of games and events which will be held there.

Public works, police, and emergency services equipment continue to be upgraded. An additional new ambulance is about to be delivered.

Our aggressive redevelopment efforts resulted in the recently completed FedEx facility, including a new traffic control signal in the Porete Avenue area. More new development is scheduled there. Ridge Road is also seeing new development as The Ridge residential project has been completed and the OPUS project is expected to break ground soon. These added ratables help maintain our stable taxes.

We continue to promote community activities and events. A record number of youth are enrolled in our various recreation programs. Free concerts, Memorial Day parade and activities, Holiday activities, senior events, and so much more are an important part of the fabric of our community.

We will continue to pursue all means of improving our community. On that, you can be sure.

Mayor Joseph Bianchi, and Borough Council Members
